- Most Adored Designer Series Paper ("DSP")– gold & white plaid - 4" x 5 1/4"
- Most Adored Designer Series Paper – gold & white small floral print 2" x 5 1/4"

Assembly Directions:

- Fold card base and burnish with bone folder
- Attach 4 1/8" x 5 3/8" gold foil panel to card front then adhere gold & white plaid DSP on top. Attach gold & white small floral to narrow gold foil piece then attach to card front in the middle
- Using the 3D embossing folder, place the nine open heart die on the inside of the folder, taking care to line up the hearts with the hearts in the embossing folder. Also make sure the cutting side of the die is facing the opposite side of the folder. Place the 6" x 6" gold foil inside so that the gold foil side is facing the cutting edge of the die
- Make your standard sandwich for a 3D embossing folder (base plate, folder then gray plate on top) then run the folder, die and gold foil through the die cut machine. **Bonus: You will have nine little heart shapes cut. Use three on this project then use six on another!**
- Attach three to the card front with dimensionals.
- Stamp the saying on the white scrap with Wild Wheat ink. **Alternate idea: To continue with the shiny gold theme, stamp your saying in Versamark then emboss with gold powder**
- Trim saying as desired then mount on a piece of gold foil. Adhere to card front
